Deciding Where & What to Buy

Congratulations on taking this first step toward buying a home. Pride of home ownership is indeed one of life's greatest joys and biggest accomplishments. It's an exciting time and my hope is that this guide will bring clarity and peace of mind during your home buying journey.

Let's get started! The first step is deciding where you want to live, what type of home you are looking for and what features are "must have's" or "would be nice to have's" in a home. Invariably, there will be tradeoffs but rest assured I am here to help sort through the options to find you the best house, at the best price and with as many of your wants and needs as possible.

Few key questions to help you get started.

- What type of home are you looking for: single family, semi-detached, townhome or condominium?
- What style of home is best for you? Bungalow, split level, two-storey, duplex?
- What about the age of the home?
- How many bedrooms and bathrooms do you need?
- What are you looking for in a kitchen, family room? Do you want a separate dining room? What is your preferred layout?
- What are your high priority features: appliances, ensuite, fireplace?
- What other types of rooms do you need? A main floor laundry, a home office?
- What about storage space? Basements, lockers?
- Do you need a garage or extra parking spaces?
- Is energy efficiency important? Newer windows or a high efficiency furnace?
- How is your daily commute? How easy is it to get to the places you need to go?
- How close do you need to be to transit, shopping, schools, hospitals?
- Are there any important location factors? Backing on to parks, road traffic?
- What size of yard are you looking for? Is the back yard important? Or is a side yard okay? What about the front yard?
- What other landscaping features are important: a fenced yard, play areas, pool, gardens?
- Is it important what direction that house faces?
- Who are you sharing this home with and what are their needs? For example, pets might need a fenced yard, or extended family wants a separate entrance.
- How much do you want to invest beyond the purchase price of the home in terms of financial or sweat equity, if you can't find all the features that you want?
- How long do you plan to live in here? That can impact the type of home, the location and how much you will spend.

Getting Preapproved for a Mortgage

The mortgage industry is a highly competitive field and it's important to understand that interest rates can change at anytime. Partnering with a mortgage broker or financial institution to help you find the right mortgage product at the best rate is key to your home buying process.

Here are 5 easy steps to get you pre-approved for a mortgage.

1. Talk with a mortgage specialist. There are hundreds of options to choose from when it comes to lenders. Independent mortgage brokers tend to offer the most options because they don't just work with one bank. However, if you have a good relationship with your bank or financial institution, contact them as your first toward finding right mortgage for you. But be sure to compare rates.
2. Complete and submit your application with the mortgage broker. They will collect your financial and personal information in order to find out how much mortgage you can carry.
3. Gather all the necessary documents. The mortgage broker will give you a list of documents that the banks/lenders need to finalize the mortgage.
4. Verification of your details. They will do their checks and balances to make sure that you are not getting in over your head.
5. Obtain a copy of your Pre-approval. This is a powerful negotiating tool. The seller of your dream home will feel more confident that you are the right person.

Having that Pre-Approval documentation can offer you several benefits:

- Save you time by only looking at properties that you can afford.
- Save you money. Rate guarantees and mortgage terms can save you money for years to come.
- Less stress throughout the process. You will know that you are ready and capable of buying a home.
- Get a better deal on the home that you want. Sellers like to know that buyers already have financing in place.

The ongoing communication and education you will receive from our team will empower you to get the best possible deal on the home that you desire.

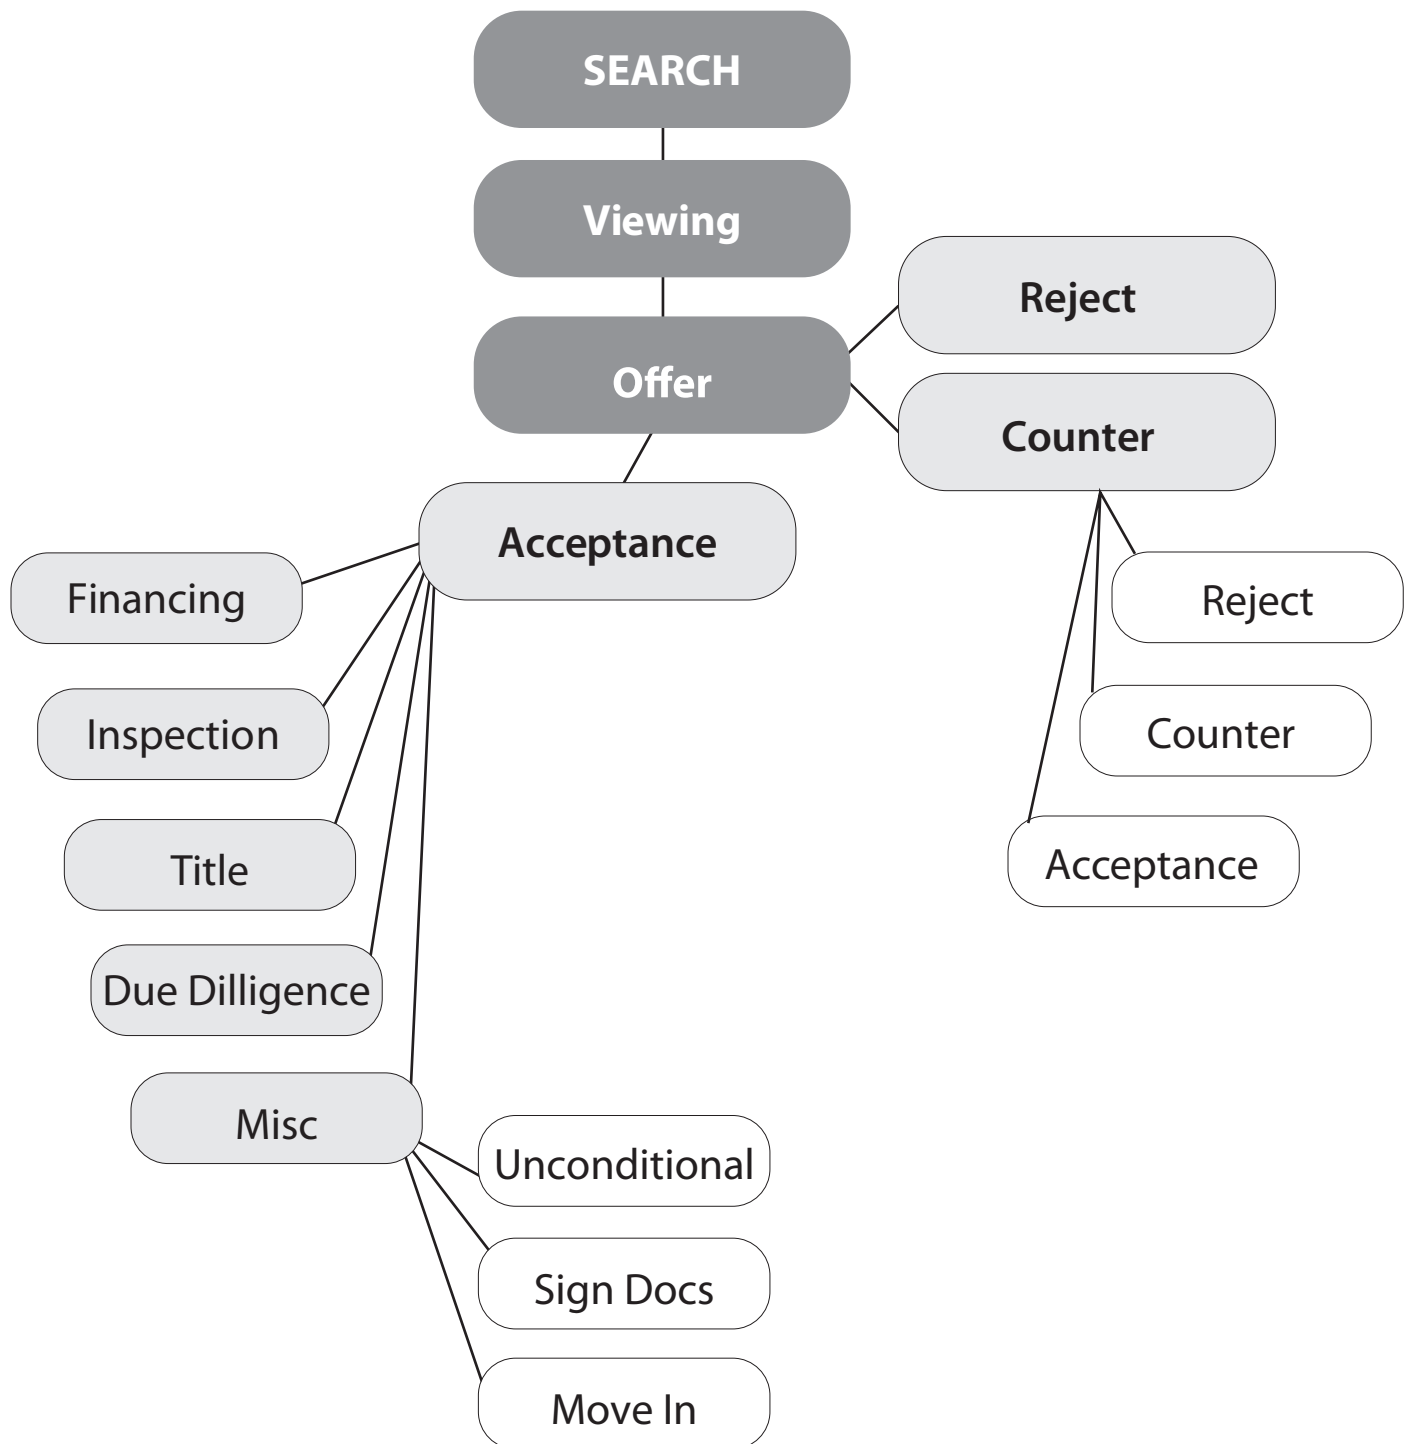

You've found the one. Fantastic! Here's what happens next:

- 2 I will prepare an offer that protects you, follows your instructions and matches your schedule and needs.
- 3 I will explain the details of the offer, the terms and suggest options for specialty clauses ensuring you know exactly what you are agreeing to.
- 4 I will present and negotiate the offer on your behalf to get you the home that you want at the price and terms you want.

What happens after this:

- The seller may accept your offer – congratulations!
- The seller may reject your offer – not common but it can happen and I would endeavor to find out why.
- The seller may counter sign, changing the terms of the offer and present the offer to back to you.
- Our negotiations continue to reach agreeable terms between the seller and yourself, or until I know an agreement cannot be reached and it's time to walk away.

The Buying Process

6

Conditions, Home Inspections and Waivers

The offer has been accepted. Now we need to satisfy the conditions.

This usually involves performing a home inspection, getting the rest of your personal information and the property information to your mortgage broker or bank. And arranging for the other information that might be necessary, like surveys, water tests and condominium documents. I will help you make the necessary arrangements to ensure that the entire process runs smoothly before the deadline. Next, you will need to add some people to your team.

Finding a Home Inspector

Home inspections allow you to scrutinize the details of the home and save you from some unpleasant surprises. I would be happy to recommend a reputable home inspector, however when making your decision....

- Ensure that the home inspector is a qualified professional. Being a member of an association can reassure you are getting an experienced knowledgeable professional.
- Ensure the home inspector checks for visible issues with plumbing, electrical systems, the roof, insulation, walls, ceilings, floors and windows, and the condition of the foundation. They can also check that included chattels, like furnaces and air conditioners, are in working order.
- Ensure your home inspector gives you an up close and personal look at your new home. It takes about 3 hours to go through all the systems, and if there are any problems, you will see them with your own eyes. They will also give you maintenance tips and easy fix-ups, if necessary.
- Ensure that in the end, you receive a detailed report that summarizes the condition of your home.

Choosing a Lawyer

Lawyers are an invaluable member of your team whose job is to ensure that you get what you are paying for and in accordance with the terms of your agreement of purchase. Your lawyer will ensure:

- There is nothing on title that isn't supposed to be there.
- The property taxes, utilities and condo fees, if applicable, are up to date.
- You have all the information that you need about your newhome.
- Your mortgage lender is satisfied and that your mortgage is secured on property title as required by your mortgage agreement.
- You know exactly how much money you will need in order complete the transaction on closing day.
- They also ensure that the seller gets paid the purchase price.

7

Preparing to Move

Typically you will have anywhere from 30 to 90 days to get everything ready for your home. It could be shorter or longer, depending on what you need and have agreed upon with the seller. The closing date is usually the same as your move-in date. It is a good idea to get things organized well in advance of the closing date to reduce the stress of the move.

- **Lawyers:** I will send your lawyer the information about your purchase. You will need to provide the lawyer with some additional information: insurance, down payment information, fee payments, adjustment payments, and possibly other signed documents that they ask you for. You will meet with the lawyer about a week before the closing to finalize everything.
- **Down Payment and Closing Costs:** Make the necessary arrangements to have the funds available when the lawyer asks for it. Liquidating some assets can require some additional time.
- **Movers:** Whether you are using professional movers, renting a truck or getting a bunch of friends together, plan and organize it early.
- **Insurance:** The lawyers will need a copy of your home insurance before closing so that the financial institution will release the money to them. Call your insurance broker with the listing information. They might also want to know the age of the house, the condition of the roof, furnace, electrical system as well as other general information.
- **Change of Address:** It's time to start giving out your new address to everyone. Use my checklist to make sure you have everyone covered.
- **Utilities:** It is important that you call the local utilities to get their services changed into your name. These include phone, internet, television, gas, electricity, water, and any rental agreements. Remember, too, to cancel the services at your old address.
